Unit Floor Plans As Presented by Developer

What follows are copies of the original floor plans that the developer of Waterscape presented in the mid 1990's when Waterscape Condominiums were under construction. These floor plans were built approximately to the plans, both as shown and as mirror-image floor plans.

Unit A – the one story, ground level, two bedroom, one and one-half bath units.

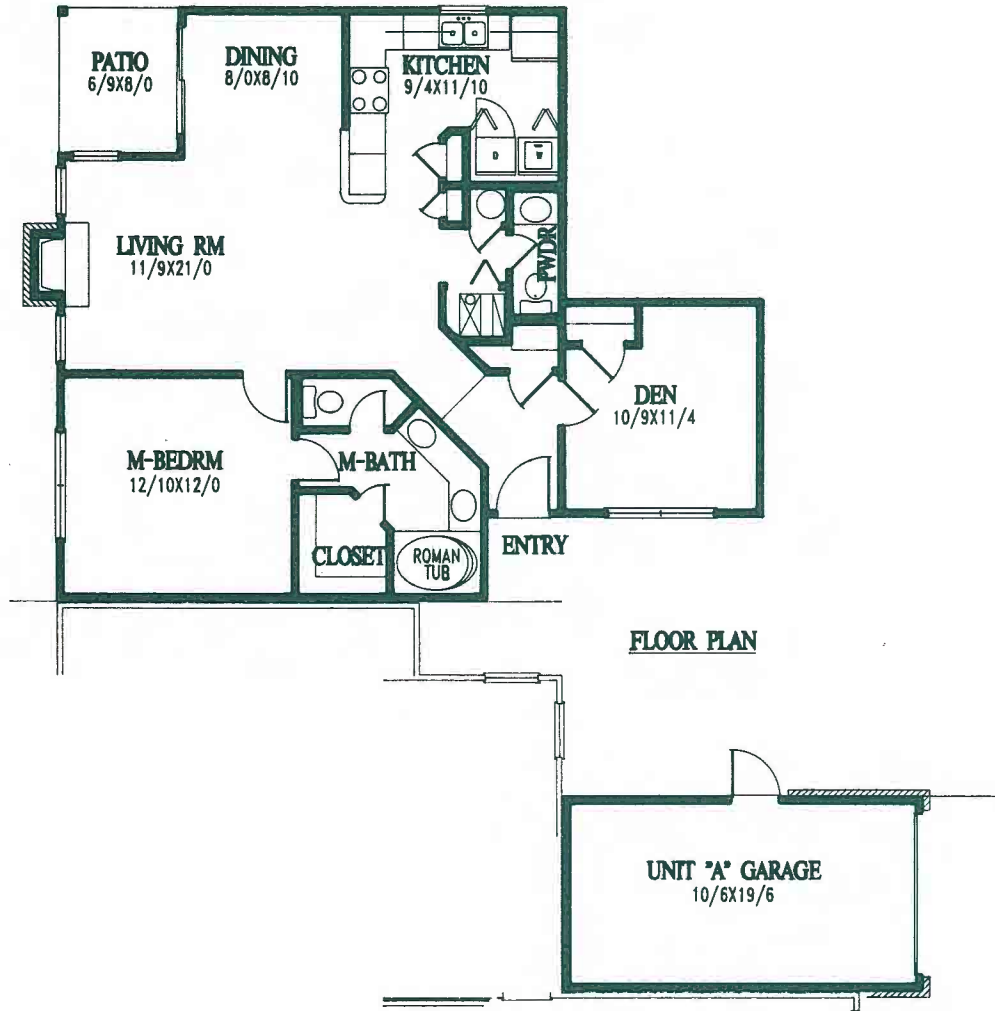

Unit B – the one level, two bedroom, two bath, lower or upper floor units.

Unit C – the one level, three bedroom, two bath, lower or upper floor units.

Units D1 and D2 – two variations of the two level, three bedroom, two and one-half bath townhouse units.

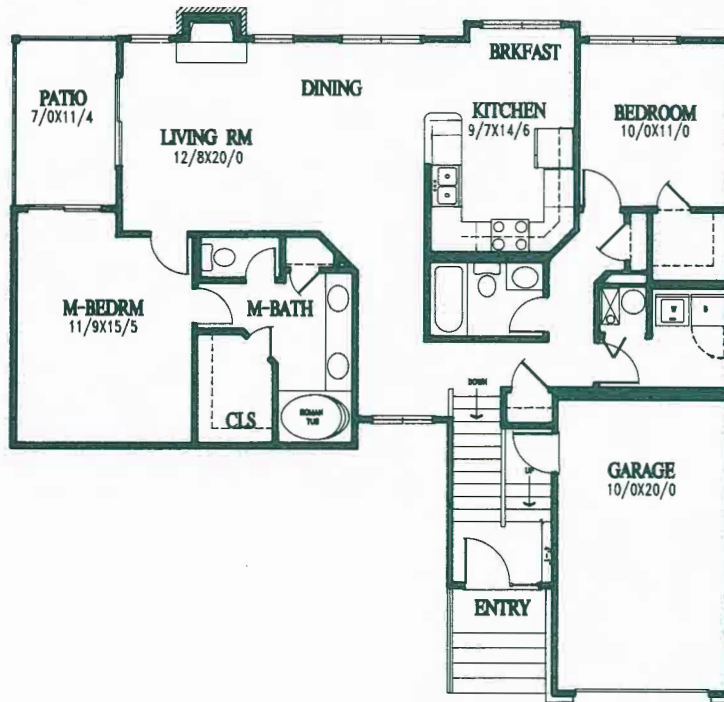

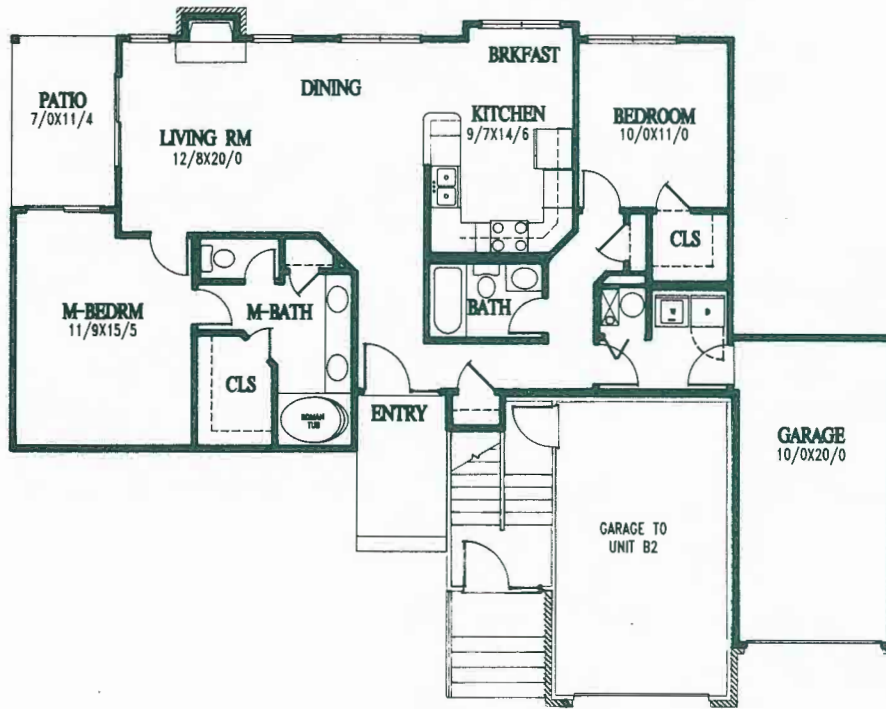

Upon request to the Managing Agent, current Waterscape owners will be provided a copy of the more detailed, “as built” plans for their building, which are recorded with Hamilton County.

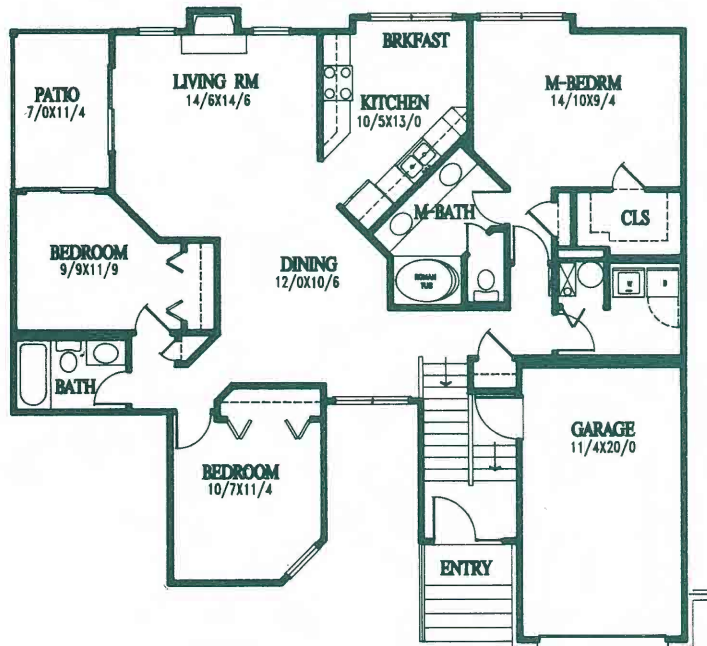

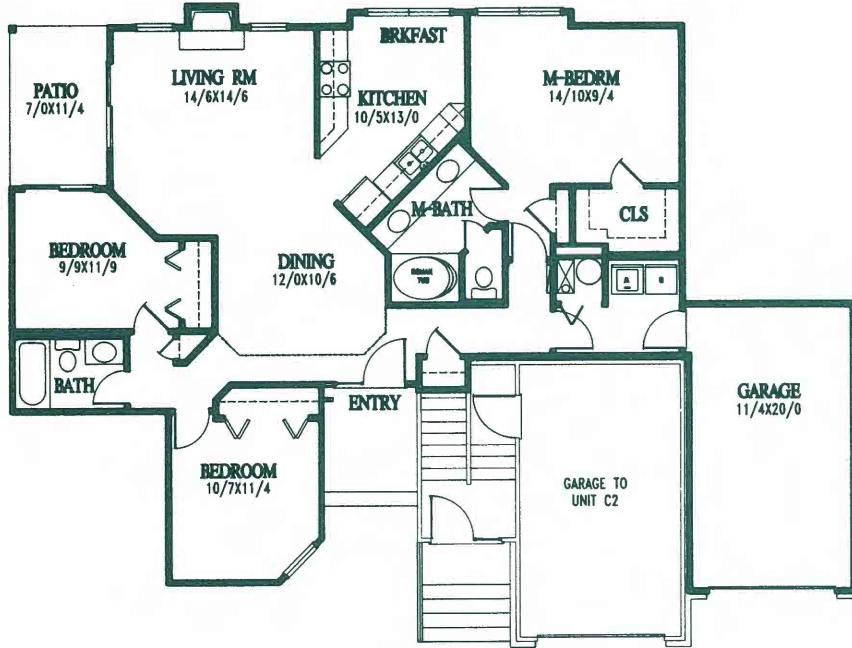

– Many thanks to original Waterscape owners John and Debi Weis for providing these plans. They must have an incredible filing system to be able to find perfect copies of these documents, which were published in 1994.
